25X1X

1. Large Soviet units, which [REDACTED] specified as heavy 25X1A AAA units, were quartered in the permanent and wooden barracks installations in the Steinbachtal (valley) near Johanngeorgenstadt (N 51/K 51) between 10 and 14 April 1951. [REDACTED] stated that he had seen long-barreled guns of about 152-mm 25X1A caliber, which were towed by caterpillar tractors. The guns did not have pneumatic tires.

2. [REDACTED] a Soviet unit with heavy guns, apparently AT guns, arrived by rail in Marienberg (N 51/K 84) on 15 February. The unit allegedly moved to the barracks installation which formerly housed a German NCO school.

3. [REDACTED] that 10 x 38-mm AA guns were recently emplaced on each of four hills in the Aue (N 51/K 53)-Schwarzenberg (N 51/K 52) area. *

25X1A

- * [REDACTED] Comment: The barracks in the Steinbachtal and the AA gun emplacements in the Aue-Schwarzenberg area are probably occupied by components of the unidentified AAA Div, possibly the 6th Gds AAA Div.
